

# DA Assignment – 1

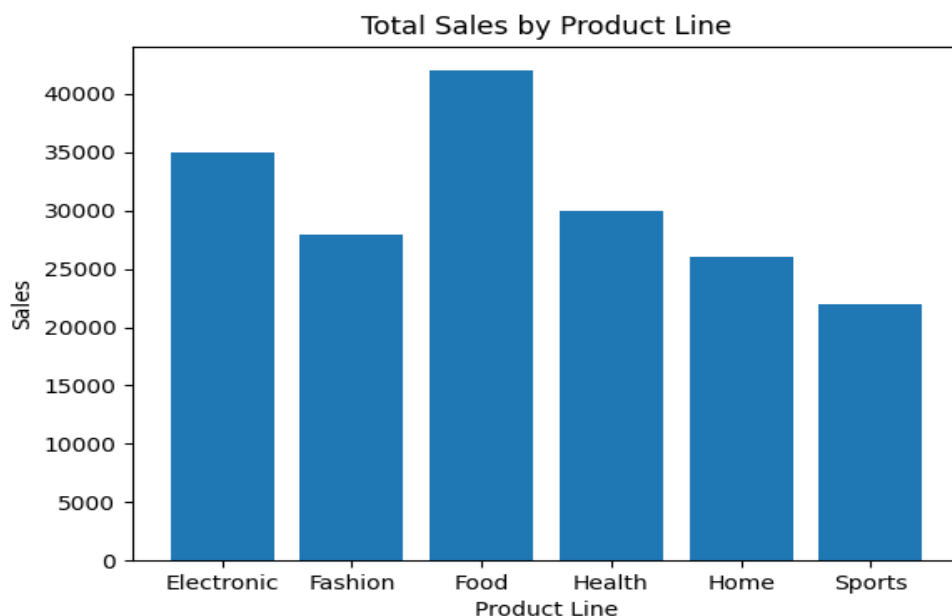

## Complete PDF with All Required Charts

### Dataset Overview

This assignment analyzes supermarket sales data from three branches (A, B, C) collected over three months (January–March 2019). The objective is to visualize sales, customer behavior, and trends using Tableau.

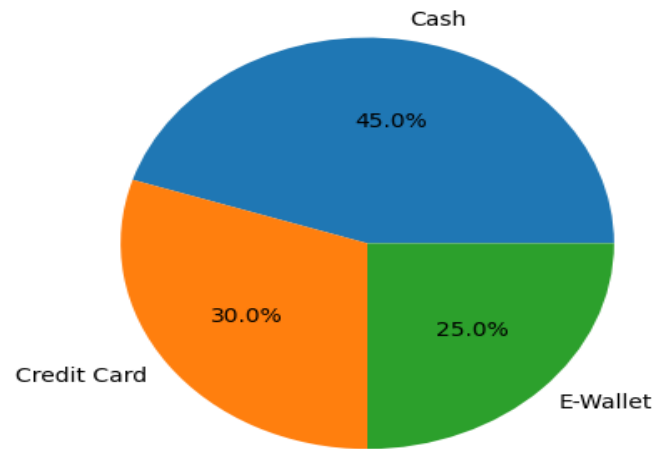

### Charts as Required in Assignment

#### Bar Chart – Sales by Product Line

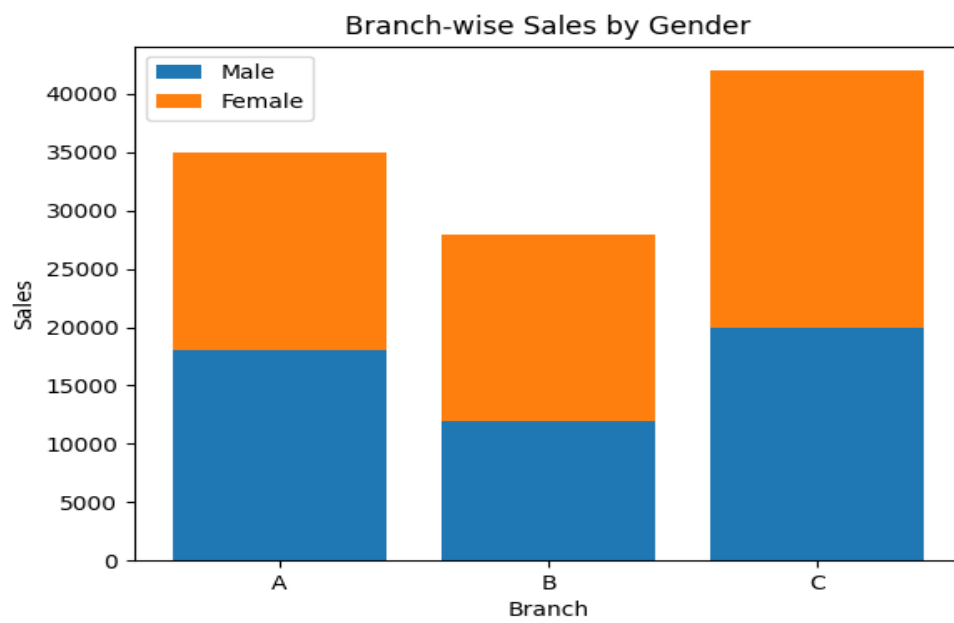

#### Pie Chart – Payment Method Share

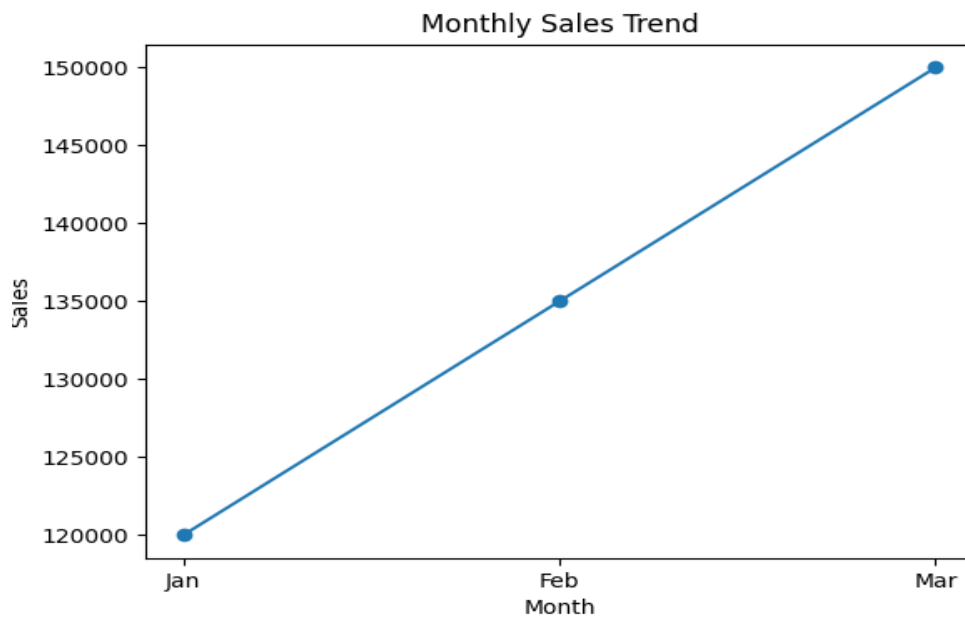

Payment Method Distribution

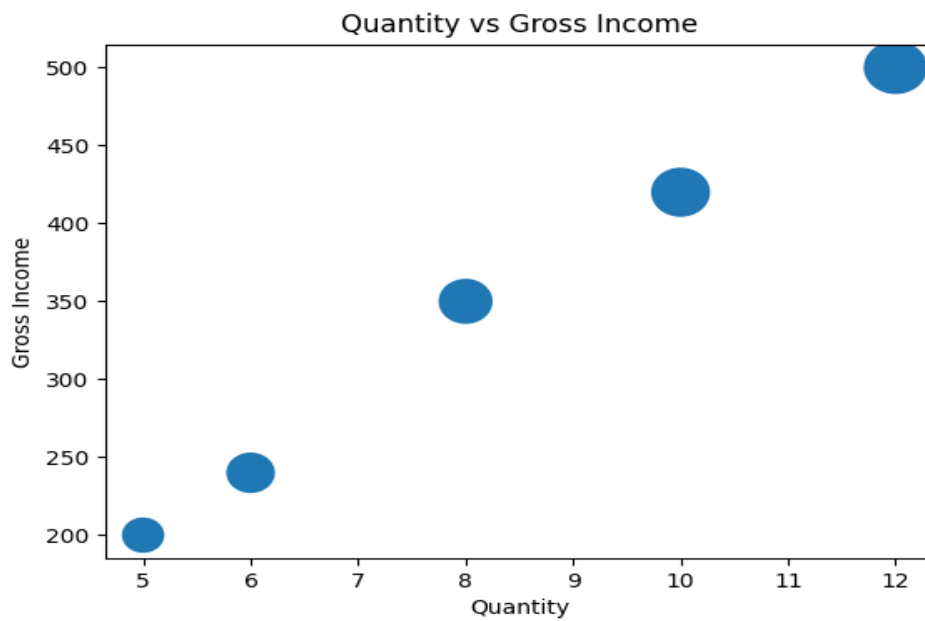

Stacked Bar Chart – Sales by Branch & Gender

Line Chart – Monthly Sales Trend

### Bubble Chart – Quantity vs Gross Income

## Submission Instructions

Recreate these charts in Tableau using the actual dataset. Take screenshots, paste them into a document, export as PDF, and submit.
